STATISTICS OF VICTORIA, 1869.

ADDENDUM.

NOTE TO "STATISTICAL SUMMARY OF VICTORIA FROM 1836 TO 1869 INCLUSIVE."

YEAR 1869.—Last column but three, "Scholars." This number (151,844) shows a great increase upon the numbers published in former years, which is partly owing to the fact that, in the returns of children attending Common Schools supplied by the Board of Education prior to 1869, the average monthly number of Children on the Rolls was given, whereas, for 1869, the total number who attended the schools was returned. Of the latter it has been found that 12·845 per cent. attended at more than one school during the year. *See* footnotes to tables, p. 314 and p. 318.

(*a*) No returns have been received from the Road District of Pyalong for the years 1867, 1868, and 1869, although they have been repeatedly applied for; these figures, therefore, have been copied from the returns of the year 1866.

NOTE.—The sum of the various heads of expenditure in the total line is less than the Total Expenditure by £656 1s. 8d., which has arisen in consequence of the details of expenditure in the Pyalong Road District not being given. In a few cases mistakes in the returns of Revenue and Expenditure sent in by the different Shires and Road Districts have been corrected in this office from the printed balance-sheets. Wherever an asterisk (*) occurs the information has not been supplied.

NOTE.—It is to be borne in mind, with reference to the returns of vines, that, whilst the acreage and number of vines, in common with the remainder of the statistics, are for the year ending 31st March 1870, the quantity of grapes gathered and of wine and brandy made are for the previous season. The grape crop comes in too late to admit of its being returned when the agricultural statistics are collected.

NOTE.—The returns of vines for 1868 are known to be imperfect. The Agricultural Statistics of that year were collected by the Crown Lands Bailiffs, who appear not to have been so successful in procuring a correct return of vines, &c., as the collectors in other years.

NOTE.—This Return contains a statement of all the live stock kept upon stations, without distinction as to the numbers running upon Crown or those upon alienated land. It has been compiled for the most part from statements voluntarily furnished by the squatters, in reply to enquiries from the Registrar-General's Department. In cases where the enquiries were not responded to, the figures have been supplied from other sources.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—The returns of milch cows for the two years marked with asterisks refer only to those on alienated land. The milch cows kept on stations were not returned separately from the other stock until 1862; consequently, until then, the total quantity of milch cows could not be ascertained. The pigs kept on stations, except those with purchased land attached, were not returned until 1862.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—The actual numbers of patents applied for are 1,097 from 1854 to 1867, both years inclusive; 124 during the year 1868; and 139 during the year 1869. The discrepancy between the actual numbers and those obtainable by adding the columns is explainable by the fact that many patents refer to more than one subject, and have, consequently, to be classified under two or more headings.

WILLIAM HENRY ARCHER, Registrar-General.

EXTENT AND VALUE OF GOLD WORKINGS.

RETURN of the Number of distinct Quartz Reefs actually proved to be Auriferous, the Total Extent in Square Miles of Auriferous Alluvial and Quartz Ground actually worked upon, and the Estimated Value of Gold Mining Claims in the several Mining Districts, during the Year 1869.

Mining Districts.	Number of distinct Quartz Reefs proved to be Auriferous.	Extent in Square Miles of Auriferous Alluvial and Quartz Ground worked upon.	Estimated Value of Gold Mining Claims.
Ballarat District	178	78	£2,111,569
Beechworth District	694	229	1,038,320
Sandhurst District	646	158	2,299,305
Maryborough District	465	70½	1,028,284
Castlemaine District	387	169	833,396
Ararat District	71	78¾	729,100
Gippsland District	440	122½	499,267
Totals	2,881	905¾	£8,539,241

NOTE.—The number of "distinct" quartz reefs cannot be strictly correct, as parts of the same reef, in some localities, are held to be distinct reefs, and named accordingly. As the reefs are further explored, it is found, too, that what were supposed to be separate reefs are not really distinct. The extent of auriferous ground is here put down from estimates made by the Mining Surveyors and Registrars, not from actual surveys; and in a few instances the estimates of the present Surveyors and Registrars differ from those made by their predecessors. The figures vary from year to year; as the shallow alluviums of the older goldfields are abandoned by the miners, they are taken up and occupied, under the provisions of the *Amending Land Act*, by agriculturists and gardeners, and ground which one year was included in the estimated area of gold-workings is excluded in another.

R. BROUGH SMYTH, Secretary for Mines.

AVERAGE YIELD OF AURIFEROUS QUARTZ.

RETURN showing the Average Yield of Gold from certain parcels of Quartz Crushed in 1869 in the several Mining Districts, from Returns made by the Mining Surveyors and Registrars.

Mining Districts.	Tons Crushed.	Total Produce.			Average Yield per Ton.		
		oz.	dwt.	gr.	oz.	dwt.	gr.
Ballarat District	255,173	104,148	19	9	0	8	3·91
Beechworth District	126,351 13/20	74,575	2	3	0	11	19·30
Sandhurst District	213,516½	108,677	17	2	0	10	4·31
Maryborough District	75,761	36,765	18	10	0	9	16·93
Castlemaine District	98,213¾	44,766	17	22	0	9	2·78
Ararat District	90,161	54,947	16	16	0	12	4·53
Gippsland District	24,245 17/20	35,752	5	1	1	9	11·79
Totals	883,422 16/20	459,634	16	15	0	10	9·73

NOTE.—The above table does not show the total quantity of quartz crushed in the several localities, but only the yield of certain "crushings" respecting which the Mining Surveyors and Registrars have been able to obtain information. Owing to the circumstance that many of the machine-owners are unable to give, or are precluded from giving, information, it is impossible to get complete returns from every district, and in considering the relative importance of each district, as regards quartz mining, the tables relating to machinery should be examined and compared.

Since the first publication of the Statistics, information has been obtained concerning 6,695,092¼ tons which have been crushed, which yielded an average of 11 dwts. 8·85 grs. per ton.

R. BROUGH SMYTH, Secretary for Mines.

PRODUCE OF GOLD FROM QUARTZ VEINS AND ALLUVIAL WORKINGS.

RETURN showing approximately the Gold obtained from Quartz Veins and Alluvial Workings during the Year 1869.

	oz.	dwt.
From Quartz Veins	530,061	4
From Alluvial Workings	810,777	4
Total Gold Exported	1,340,838	8

NOTE.—The above results are but rough approximations. The Mining Surveyors and Registrars can furnish only estimates based on information afforded by the banks and gold-buyers, and on their own knowledge of the character of the workings in their districts. The check on the returns—and not a sufficient one—is that afforded by the returns of quartz and quartz tailings crushed, which, however, cannot and do not comprise information respecting all the vein-stuff put through the mills.

R. BROUGH SMYTH, Secretary for Mines.

* Including the nominal value of postage stamps issued to Government departments until the 2nd August 1864, when the Post Office Statute (27 Vic. No 226) came into operation. By the 14th section of that Act, letters on Her Majesty's Service go free upon being impressed with a frank stamp; and hence it has not been necessary to issue any postage stamps to Government offices since that period.
† These figures show the letters passed through the Post Offices, instead of the letters despatched and received. The latter mode of computation has been adopted for each year since 1860.
‡ The Electric Telegraph being now incorporated with the Post Office, these figures include the income and expenditure of both departments.

(*a*) Without board and lodging.

NOTE.—This Table has been compiled from returns received from the police magistrates, town clerks, presidents and chairmen of shire councils and road boards, and other officials located in the various districts, in accordance with forms supplied from the Immigration Office. These forms, in addition to columns for the above information, contained a request that the wages of any other prominent callings might be furnished. This request resulted in fishermen being returned as earning about 35s. per week, and mat and broom makers earning from 25s. to 30s. per week in the shire of Bellarine; in wages for waggon drivers being returned at 25s. to 30s., with board and lodging, for Bungaree; and in wages of tanners being returned at from 42s. to 60s. per week, without board and lodging, for Echuca. The wages stated to be paid to needlewomen at Indigo, and to all descriptions of female servants at Wood's Point, appear excessive, and it may be doubted whether such high rates have any existence in actual fact.

WILLIAM HENRY ARCHER, Registrar-General.

NOTE.—This Return has been supplied by the Government Astronomer. The times of taking daily observations, whereby the records of mean temperature and mean atmospheric pressure are obtained at the various stations, are as follow :—Melbourne, Portland, and Cape Otway, 6h. and 9h. a.m., and 3h. and 9h. p.m.; Sandhurst, 9h. a.m., and 3h. and 9h. p.m.; Ballarat, 9h. 30m. a.m., and 3h. 30m. and 9h. 30m. p.m.; Ararat, 9h. a.m., and 3h. p.m. To these observations a correction is applied, in order to make the results equivalent to those derived from hourly observations.

* Until September 1862 the readings were at the Flagstaff Observatory, 120·7 feet above the level of the sea. After that period, the readings were at the Melbourne Observatory, 91·3 feet above the sea-level. It is necessary to increase the observations taken at the former place by ·029 inch, to make them comparable with those of the latter.

(*a*) This column presents a statement of the average numbers attending at one service only on the Sabbath, and it has been pointed out that this mode of calculating the attendance does not render the returns of the different denominations strictly comparable, inasmuch as, in connection with some religious bodies, there are several services held on the same day, at each of which an entirely distinct set of worshippers attends, whilst in the case of other denominations the attendance at subsequent services always consists, to a greater or less extent, of the same individuals as were comprised in the first congregation.——(*b*) The figures for the Baptist Church are stated by the authorities of that body to be only approximate, as the correct figures could not be ascertained.——(*c*) No returns for the denomination of "Christians or Disciples of Christ" have been received for the year 1869, although repeatedly applied for; these figures have therefore been copied from the returns of the year 1868.

(*a*) This column gives the number of establishments.

(*b*) This is the total number of children who attended school during 1869, uncorrected for attendance at more than one school, but a reference to par. 13, page 9, of the Eighth Report of the Board of Education, will show that 12·845 per cent. of the scholars attended at more than one school during the year; therefore, if 121,713 be reduced for such attendance, the corrected number will be 106,079 distinct children who have attended Common Schools during 1869.

B. F. KANE, Secretary.

NOTE.—The amounts received by Common Schools for the year 1869 cannot be made up until after the end of 1870. The amounts received for 1868 are given in the next table.

(*a*) In connection with the Melbourne Grammar School there is an exhibition of £21, tenable for three years, which is awarded annually to a student, who must remain in the school; also one of £20, given annually for three years to a student who is going to attend the University.——(*b*) In connection with the Wesley College a scholarship, called the "Draper Scholarship," has been established in memory of the late Rev. D. J. Draper, who perished in the *London*.——(*c*) There are two exhibitions in connection with the Congregational College—the "Rolfe Prize" of £20, for the best composition of the year on an assigned subject; and the "Fletcher Prize," for proficiency in the classics. This college was founded for the education of young men intended for the Ministry among the Congregational or Independent Churches, but it has recently been opened to others than students for the Ministry.

NOTE.—The large increase in the number of scholars in Public Schools shown in the returns for 1869 is partly owing to the fact that, in the figures supplied by the Education Office prior to that year, the average monthly number of children on the Rolls was given; whereas, for 1869, the total number who attended the schools was returned. It was mentioned in a footnote to the Table of Common Schools *ante* that a correction applied for the children who attended at more than one school would reduce the number shown in the table (121,713) to 106,079 as the number of distinct children who attended Common Schools during the year. In the "Statistics for 1868" it was stated that the number of distinct children who attended Common Schools in that year was 101,925.

WILLIAM HENRY ARCHER, Registrar-General.

(*a*) The figures for the Baptist Church as furnished by the authorities of that body are only approximate, as the correct figures cannot be ascertained.——(*b*) No returns for the denomination of Christians or Disciples of Christ have been received for the year 1869, although repeatedly applied for, these figures have therefore been copied from the returns of the year 1868.

NOTE.—The returns of the Methodist New Connection, the Baptist Church, and the greater number of the Welsh Calvinistic Connection do not distinguish the sexes of teachers and scholars, and hence the sum of the males and females does not agree with the total of both sexes,

WILLIAM HENRY ARCHER, Registrar-General.
